5310 - HEALTH SERVICES

If the School Corporation chooses to provide nonemergency physical exams or screenings, the **Beard School Corporation** shall directly notify the parents of students, at least annually at the beginning of the school year, of the specific or approximate dates during the school year when any non-emergency, invasive physical examination or screening is scheduled or expected to be scheduled for students if examination or screening is; (1) required as a condition of attendance; (2) administered by the school and scheduled by the school in advance; and (3) not necessary to protect the immediate health and safety of a specific student, or other students.

The term "invasive physical examination" means any medical examination that involves the exposure of private body parts, or any act during such examination that includes incision, insertion, or injection into the body, but does not include a hearing, vision or scoliosis screening.

Unless the physical examination or screening is permitted or required by an applicable State law, parents may refuse to allow the **Beard School Corporation** to administer a nonemergency, invasive physical examination or screening upon written notification to the **Beard School Corporation** within ten (10) days after receipt of the **Beard's School Corporation's** annual public notice.
