Mr. Steve Ohlhaut, Business Manager  
West Lafayette Community School Corporation  
1130 North Salisbury St.  
West Lafayette Indiana, 47906

Dear Mr Ohlhaut:

Please consider this letter a proposal for the following demographic work to be completed for the West Lafayette Community School Corporation. The work will include the following:

1. Population estimates for the year 2020, and population forecasts for the years 2025 and 2030 by age, sex, and total population for the West Lafayette Community School Corporation.
2. Enrollment forecasts by grade for the years 2023-2024 to 2032-2033 inclusive, by grade for the West Lafayette Community School Corporation.
3. One executive and summary describing the methodology, assumptions, and historical patterns used in the calculations of the forecasts. Tables and graphs describing the demographic characteristics and dynamics of the school district will also be provided.

The cost of this project will be \$4,000. This price includes all travel and materials expenses. If the school district would like to have an in-person presentation of the forecast result, there will be an additional \$900 charge. A virtual presentation will be an additional \$300 charge. The project will be completed within 3 weeks of receiving the Fall 2022 ADM enrollments.

If this proposal meets with your approval, we can begin work upon notification and receipt of five (5) previous years of Fall ADM enrollment data by grade and the September 2021 ADM enrollment numbers. If you need additional information, please do not hesitate to contact me. Thank you for considering us for this project.

Sincerely,

Jerome N. McKibben Ph.D.  
Senior Demographer
